Resume

Passionate full stack developer with a strong background in creating high performance web solutions. My ability to work on both the front-end and back-end allows me to take projects from start to finish. I am an effective collaborator and committed to continuous improvement in an ever-changing field.

Experience

DESARROLLADOR FULL STACK | TECHCO CREATORS **|** JULIO 2024 – OCTUBRE 2025

- **Migration** of legacy internal ASP Web Forms systems to .NET 8 and Razor with cleaner code. These administration systems were unified into a single platform, structured in UI, Domain, and Data layers to **improve organization and maintenance**. **User manuals** were also developed, including guides with illustrative images, to facilitate understanding and efficient use of the program's various features.
- **Reactivation and UI improvements** for a legacy Eurocup bracket tournament management project, integrating user authentication using Keycloak, real-time event streaming with Kafka, and remediating user interface elements to improve functionality.
- Use of HTML, CSS, JavaScript, ASP (Razor y Web Forms), .NET 8, SQL, KeyCloack, Kafka, MongoDB.

FULL STACK DEVELOPER| J&G SOLUTIONS **|** AUGUST 2023 – MARCH 2024

- **Development of Fisio File**, an electronic record, **scheduling, and billing** project for physiotherapists, and Pura Vida Safety, a project focused on quality and occupational health. Including their respective landing pages using the Astro framework, based on the design team's prototype.
- **100% completion of assigned tasks**, including user interface improvements, mobile adaptation, pop-up integration, creation of profile and account pages, implementation of roles, connection to the billing API, creation of database tables, and contributions to new REST API features.
- Use of Vue.js, Quasar, HTML, CSS, .NET, SQL, Git and Jira.

FULL STACK DEVELOPER | MARMAT CONDOMINIOS **|** MAY 2022 – APRIL 2023

- **Plan application development** throughout the software lifecycle, including requirements gathering, client meetings, **SCRUM** methodology, and client training.
- Develop modules for the **condominium catalog**, filtering by name and location, email contact forms, logins for users with different roles, **CRUD table maintenance**, common area reservations.
- Use of HTML, CSS, .NET, C#, SQL, Azure DevOps, RESTful API to interact with the database.
